

Profile Of Your Client

My client is Mollie Gaito, who runs a small mocktail catering business called The Flower Haus. She primarily vends at events and private parties, and the goal is to create a fun sober experience and to bring people together. My client's mission statement is "We're dedicated to creating a wellness-focused community environment". My client does not currently have a website, but has a Facebook page and an Instagram:

Facebook: <https://www.facebook.com/p/The-Flower-Haus-61565916988682/>

Instagram: <https://www.instagram.com/theflowerhausvt/>

Profile Of Target Audience

List of reasons visitors are coming to the site:

1. To find sober or alcohol-free drink options for events
2. To book a mocktail bar for a wedding, party, or corporate event
3. To view the menu and flavor options
4. To check pricing and packages
5. To see photos from past events
6. To learn about the brand values (wellness, inclusivity, sober-friendly)
7. To read reviews or testimonials
8. To contact the business with questions or custom requests

Reasons why fictional visitors are coming to the site:

Sue Sinclair (23, Freelance Graphic Designer)

1. Sue wants to find sober or alcohol-free drink options.
2. Sue wants to learn about the brand values (wellness in particular).

Lake Carter (36, Software Engineer)

1. Lake is attending a queer pride event that The Flower Haus will be catering, Lake wants to see photos from past events.

2. Is checking the menu and flavor options.
3. Wants to read reviews.

Rebecca Wells (51, Nonprofit Program Coordinator)

1. Rebecca is planning an event and wants to book The Flower Haus.
2. Rebecca wants to check the pricing and packages.
3. Rebecca wants to contact my client with questions and special requests.

Client Consultation:

1. Define Purpose

- What is the primary goal of the website?
 - Book more clients, more events, scale the business
- What is the single most important action you want users to take on the website?
 - Knowing the customization options of what's possible, what events can be catered, how the business can fit in a lot of different atmospheres and environments.

2. Key Messages & Content

- What is the main message you want to convey to your audience?
 - Wellness focused, the functionality and benefits of different beverages, benefits of herbalism. Not just a fun drink! Also good for your health.
- What are the most critical pieces of information users must see immediately on the homepage?
 - Overview of the business, booking button, gallery of images, sample menu.
- Do you have any existing content or text for the website? If yes, please share it.
 - Some photos and past menus from events.
- Are there specific photos, videos, or graphics you'd like included? If yes, please share it.
 - Yes, will send those over
- Do you have a logo? If yes, please share it.
 - Yes

3. Desired Features

- What specific features do you want on the site?
 - Animated landing page
 - Interactive graphics
 - Booking form
- Which features are essential, and which are "nice to have"?
 - Essential:
 - Booking form/inquiries
 - About page
 - Gallery of past events
 - Nice to have:
 - Animated landing page
 - Interactive graphics

4. Inspiration & Preferences

- Can you provide examples of websites you admire? What do you like about them?
 - <https://familiarscoffee.com/> - easy to navigate, color palette, nice logo

- <https://www.sweetmariestea.com/> -simple, nice incorporation of illustrations, whimsical
- Overall likes whimsy and color, easily accessible,
- Are there any design elements or website functionalities you dislike? If so, why?
 - No hidden features, confusing layout, collapsing tabs
 - Dislikes things that make the page difficult to navigate
- What image, look, or feel do you want the website to convey (i.e., modern, minimalist, playful)?
 - Playful, whimsical, fun, interactive, friendly
- Do you have an existing style guide, color palette, or typography preferences?
 - Yes, font that we love called "Fairy Cottage"
 - No specific colors but nothing neon or overly bright
 - Likes jewel tones
 - Fairytale look

5. **Navigation & Structure**

- What are the key pages or sections the website should include (i.e., About, Services, Contact)?
 - Home
 - About
 - Contact
 - Booking Form
 - Sample menus
- What should the main navigation look like?
 - Standard navigation bar at the top
- Do you need subpages or dropdown menus? If yes, for which sections?
 - No

6. **Competitor Analysis**

- Who are your main competitors?
 - Tonique Mobile Bar, but she's less of a competitor now
 - Adventure Dinner- does themed monthly dinner events that also does mocktails at festivals
- What do you like about their websites?
 - Simple to navigate
 - Really nice mission statement
 - Nice photos
 - Like having all the information on one page (particularly for mobile)
 - Classic and professional looking
- What do you dislike about their websites?
 - Didn't like the overall aesthetic, corporate sort of look
- How do you want your website to stand out from theirs?
 - A more fun and approachable look
 - More of a home-y and friendly feel

7. **Audience Engagement**

- How do people currently find you online?

- Instagram primarily
- Are your clients or customers one-time visitors, or do they return frequently?
 - A few repeats, then one-time events, markets, etc
- Are you active on social media? If so, which platforms?
 - Active on instagram, cross posting but not active on facebook
- Do you rely on referrals or customer reviews to drive traffic?
 - Referrals mostly, word-of-mouth

8. **Maintenance & Updates**

- How often will you need to update the website?
 - Probably not often, it would be nice to link it to instagram, so people can get the most up to date information
- Who will be responsible for maintaining the site (i.e., your client, a hired professional)?
 - Client
- Do you anticipate needing assistance with updates or changes? If yes, how frequently?
 - Probably not, pretty technologically savvy

Design and Prototyping

Refined SDLC Approach and Timeline

1. Refined SDLC Approach & Timeline

- Will be using Agile model, timeline below:
 - February 1: Client consultation, wireframe feedback and review
 - February 8: Refine and finalize sitemap and detailed wireframes
 - February 22: Build HTML structure for home page, about, contact, booking, and sample menu pages
 - March 1: Apply CSS styling to entire site
 - March 7: Get client feedback on general layout and usability
 - March 14: Refine site based on client feedback
 - March 29: Develop javascript and interactive features
 - April 5: Set up analytics
 - April 11: Get client feedback on progress
 - April 12: Refine site based on client feedback
 - April 26: Final testing, debugging and launch.

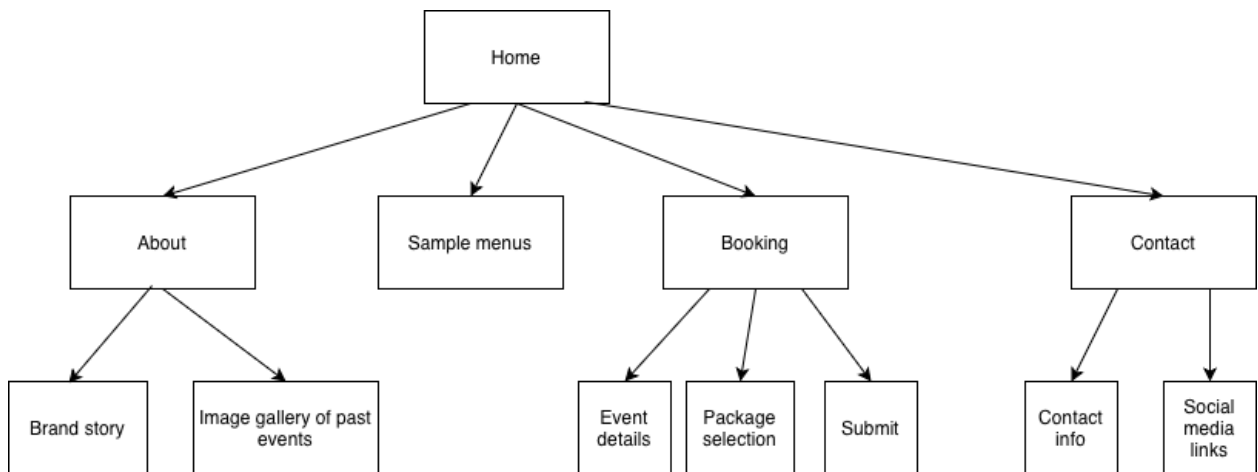

2. Original Client Logo

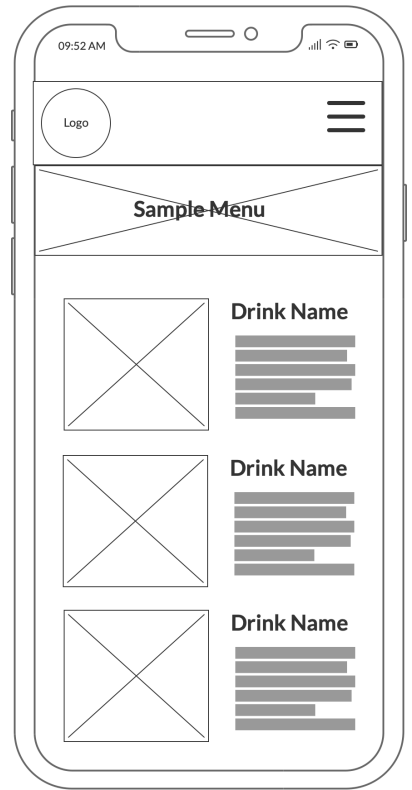

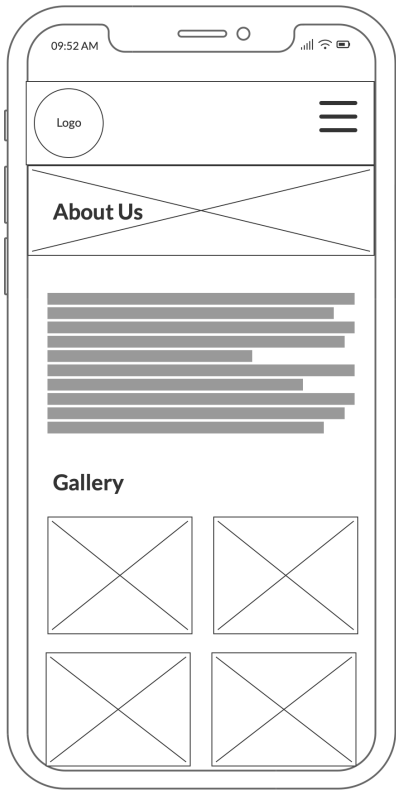

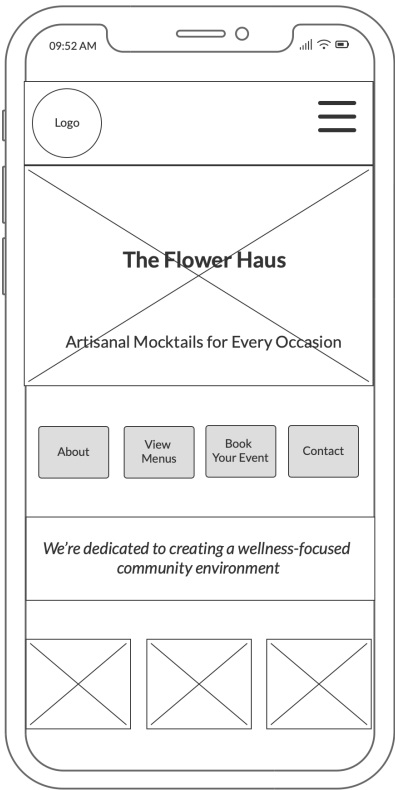

My client already has a logo that she likes, so I've just converted the image to black and white and removed the background.

The Flower Haus

3. Refined Site Map

4. Refined Wireframes

Mollie Gaito
The Flower Haus
The Flower Haus LLC

I verify that Alyssa Portofee and I are partnering on her project for a web page creation.

I approve for her to develop my business website

- Mollie Gaito

Consultation Confirmation:

Date and time of meeting:

February 1, 5:30 pm

Meeting was over the phone.

Key points discussed:

Purpose, messages, features, timeline and layout.

Changes: Refined original target demographic to be more inclusive (all ages instead of 21+)

Clarified vision for visual style, including color palettes, fonts and overall look and feel.

Consultation Approval:

Hey Alyssa

Looks great!
Can't wait to see the future web page (:

Cheers,
Mollie

Reflection on client feedback:

Based on my discussion with my client, I got a clearer idea of her target demographic. I had thought that the mocktail business most likely would primarily target adults 21+ who were looking for a sober alternative to alcohol. However Mollie clarified that she has actually booked a children's event, so she wants to make it clear that her business is aimed at all ages and is family friendly. Based on this feedback I took out some wording on the original wireframes about the Flower Haus being a sober alternative in order to make the site feel more inclusive. Additionally, we talked a lot about the style she wants her business to have and clarified the look and feel from my original idea. We talked a lot about it being a delicate balance, because the whimsical and inclusive nature of her business sets her apart, but we think it's still important for the site to have a clean and professional look (more so than her instagram). So we want to keep the layout of the site pretty clean (other than the home page), and bring the whimsy with font choices, fun color palettes, and maybe some illustrations incorporated.
